SUMMARY

Final-year Computer Science Engineering student with strong knowledge of **software development, web applications, and database systems**. Experienced in building **practical software projects** and **working with modern development tools**. Passionate about **problem solving** and **developing efficient software solutions**.

EDUCATION

B.E. Computer Science and Engineering — **Expected April 2026**

University College of Engineering (BIT Campus), Anna University - Tiruchirappalli — *CGPA/Score: 8.0*

HSC - *Akshaya Academy* — *Percentage: 92%*

SSLC - *Akshaya Academy* — *Percentage: 98.4%*

SKILLS

Programming: C, Java, JavaScript, Python (Basic)
Web Development: HTML, CSS, JavaScript
Database & Concepts: SQL, DBMS
Tools: Git, VS Code, Eclipse, Power BI, Excel
Core Concepts: Object-Oriented Programming, Data Structures

EXPERIENCE

Web Developer Intern - InnovateIT Labs | July 2025

- Developed and deployed a **Task Tracker web application** using backend and frontend technologies. Hosted the application using **Netlify and Render**. (Task-Tracker)
- Built additional mini projects including a **Calculator, Rock-Paper-Scissors game and Portfolio website**. (Portfolio Page)

PROJECTS

Secure Multi-Factor Authentication System (Currently Working**) | Tech***: HTML, CSS, JS, SQL, PHP*

- Enhanced a **multi-layer authentication system** to enhance login security through advanced verification methods.
- Implemented **matrix-based authentication and Image-based verification** to prevent unauthorized system access.

Payroll Management System | Tech*: HTML, CSS, JS, SQL*

- Built a **role-based payroll management system** to manage employee records, attendance, and payroll processing.
- Designed a **structured system for salary calculation, employee data management** following SDLC practices.

Task Tracker Application | Tech*: HTML, CSS, JS, Node.js*

- Developed a **web-based task management system** to create, organize, and track daily tasks efficiently.
- Created a **simple and responsive interface** to improve task tracking and user productivity.

ACHIEVEMENTS & ACTIVITIES

- Earned the **NCC 'C' Certificate**, demonstrating discipline and leadership.
- Participated in structured **NCC training** and **team-based** activities.
- Improved my **teamwork**, **responsibility**, and **leadership** skills.
